**MESSAGE FROM HON'BLE CHAIRPERSON TO THE PUBLIC AT
LARGE ON "WORLD ENVIRONMENT DAY - 2022"**

The fifth June - 'World Environment Day' is a reminder to all of us to protect our precious and pristine environment. The greatest gift to mankind and other life, is 'Water and Air' which each of us need to conserve. Let us once again commit to protect water sources, use them appropriately and maintain their cleanliness. We also keep our ambient air for gasping and not to contaminate it. We can't afford to either loose or degrade them as such loss/degradation cannot be made out by any monetary cost.

Let us pledge on this day for above commitment.
